

OUR SERVICES

Certified Pool Operator Training

We provide certified pool operator courses across the country with a 95% pass rate. Aquatic Pool Inspections is dedicated in providing the most knowledgeable and hands on courses in the industry and we take pride in building lasting business relationships with our outstanding service and lifetime of free phone consultations for all former students.

Commercial Pool Management

We offer various services including, but not limited to, supervision, CPO maintenance, leak detection, aquatic supervision plans, troubleshooting, emergency calls, commercial and residential pool opening & closings, training, pre-sale and residential pool inspections liability & risk management.

Consulting

Since many builders are unfamiliar with the complexity of an operating pool, it is in your best interest to hire a professional pool consultant when designing or renovating a pool. Our consulting services provide, among other things, advice on what equipment, material, and products to use. As a result, we save our clients time and money!

Pool Orientation and Training

Regardless if you are a new or seasoned pool owner, we can provide orientation and training, which make homeowners/facility managers familiar with the equipment. Our goal is to help minimize cost, protect your investment and help with the requirements for properly maintaining your pool in the safest most cost efficient way.

Aquatic Facility Audit

Our detailed audits ensure our clients adhere to state and local health and bathing codes including (VGB) pool, spa Act, and the new (ADA) regulations. Violations of codes can result in fines, litigation, revenue loss and the inability to utilize the pool, which means unhappy customers and loss of money.

Pool Inspections

At Aquatic Pool Inspections our inspections are performed by NSPF Certified Pool Operators, instructors, and inspectors. Our inspectors have conducted classes nationwide, certifying many of the current health inspectors in the industry. We have extensive experience in the pool and spa industry and are up-to-date with the current codes and regulations.

&
THE NATIONAL SWIMMING POOL
FOUNDATION ARE OFFERING CERTIFIED
POOL/SPA OPERATOR CERTIFICATION
COURSES

COURSE DESCRIPTION:

The CPO® certification course is designed to provide individuals with the basic knowledge, techniques, and skills of pool and spa operations. The Certified Pool/Spa Operator® certification program has delivered more training than any other program in the pool and spa industry since 1972, resulting in more than 282,000 successful CPO® certifications in 64 countries. Many state and local health departments accept the CPO® certification.

WHO SHOULD ATTEND:

- pool operators
- service technicians
- pool managers
- resort/hotel/motel staff
- apartment maintenance staff
- aquatic supervisors
- water park managers
- recreation directors
- anyone responsible for technical operation, maintenance, or management of pools or spas

OUR GUARANTEE

Aquatic Pool Inspections guarantees to provide experienced, knowledgeable, and professional instructors. This dynamic setting offers direct interaction with our knowledgeable instructors which are generally providing pump room repairs, inspections and pool maintenance/services on a daily basis. They will work with you and or your employees on a one on one basis, if needed, until you fully understand the topics covered. We offer a lifetime of phone consultation for former students.

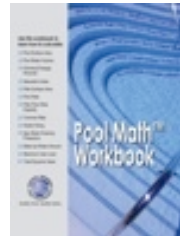

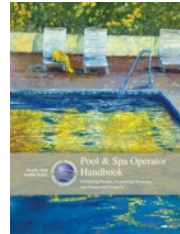

www.apoolinspection.com

Full Course - The **2 day** CPO® certification program run **8:30am to 5:00pm** both days and covers all 18 chapters from the NSPF® Pool & Spa Operator™ Handbook as well as local state codes. The two day course requires students to take an open book exam where the student must achieve 75% minimum. Pass the open book exam and earn a CPO® certification. Fee (includes the Pool and Spa operators handbook, all materials, cert fee, and two days of professional instruction) -\$295

Fusion Course (CPO online)- Aquatic Pool Inspections offer an **online course** which replaces day one of the full course. Successful candidates receive a record of completion which they should bring to the **second day of a scheduled class**. Fee (includes the Pool and Spa operators handbook, all materials, online course password, cert fee, and one day of professional instruction) -\$350

The two day class includes covered topics such as:

- Governmental Regulations
- Pool & Spa Management
- Pool Water Circulation
- Water Balance
- State & Federal Pool Codes
- Pool Calculations
- Liability & Risk Management
- Disinfection
- Spas & Hot Tubs
- Record Keeping
